

Ancient Egyptian Art - Etruscan Art(12-14)

Ancient Egyptian art

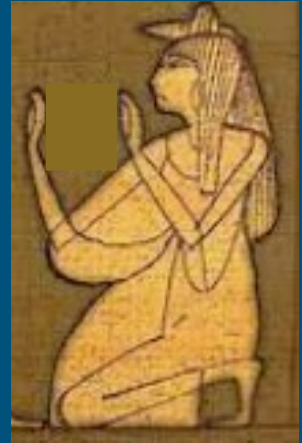

- Ancient Egyptian civilization - from 3000 B.C., following predynastic period, to when Alexander conquered Egypt (c. 332 B.C.)
- Egyptian art emphasizes hierarchical scale - uses size to show a figure's status

Presentation of Figures

(Ancient Egyptian Art part 2)

- Figures are presented so each body part is shown clearly (fractional representation)
 - Head, lower body, legs, & feet are in profile, the eye in frontal view w/ the head, & torso is in full frontal view
- Excellent preservation was in much of Egypt
 - Mummies preserved Egyptians well
 - King Tut's tomb was hidden cleverly

Nubian Art

- Nubia covered much of Africa(southern Egypt included)
 - Nubia completely controlled Egypt(Pharos were Nubian too)
 - Influenced ancient Egyptian art a bit
- Contemporary historians researched Nubia(info could change as people research Nubia more{maybe})

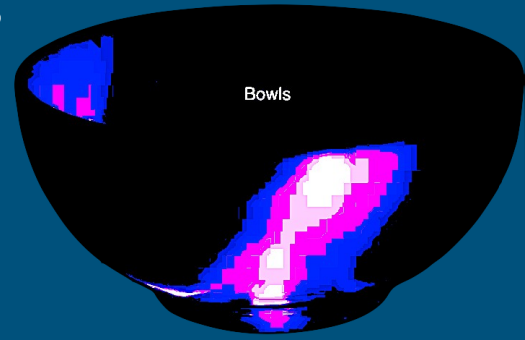

Cycladic, Minoan, & Mycenaean Art(context)

- The Aegean island art was important to our understanding of before ancient Greeks was an idea
- Three cultures flourished on the islands in the Aegean Sea, on Crete, & along the Aegean coast

Cycladic Art

- Cycladic, earliest of the three, flourished about 3200-2000B.C.
 - “the simplified, geometric nude female figures from this area are highly appealing to modern sensibilities.”
 - produced decorated pieces of pottery as well as marble bowls & jars

Minoan art

- Minoans peaked in 2,000 B.C.(took over Cycladic)
 - Centered around Knossos, Crete
- Art of Minoans depict sea life, include statues of a snake goddess(?)
 - Frescoes on palace walls
 - Pottery designs
- Minoans built four palaces, completely unfortified & designed in a natural style(wow)

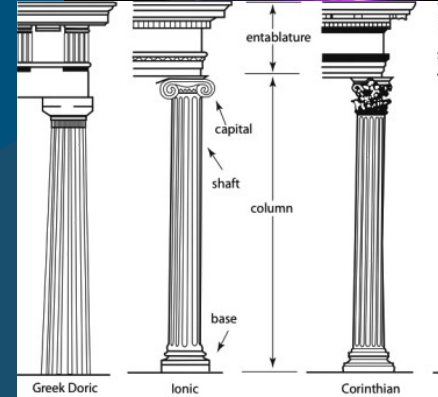

Mycenaean Art

- Peak was at Minoan collapse(people think Mycenaeans beat Minoans), Centered around Mycenae
 - Built fancy tombs, burial practices allowed many things to preserve
 - Best known are made of gold & show mastery in goldsmithing
 - Made 3D engravings on flat surfaces(relief sculpture)

Ancient Greek Art

- During 660 to 475 B.C., Greek art copied Egyptian & Mesopotamian art
 - Made sculpture w/ marble & limestone
 - Placed emphasis on human proportions
 - Columns were in Doric & Ionic style
 - Also painted vases
 - Corinthian style used flowers, Athenian style is black/red figures

Ancient Greek Art_(part 2)

- Best known art is from Classical period Athens
 - Temples were typically built w/ Doric columns(much of the sculptures have not survived)
 - Characterized by dignity, strength, & simplicity, often focused on a figure/scene either before/after an important action
- They took stiff positions of Egyptian art & gave them life

Presentation of figures (Greek Edition)

- “Contrapposto” (counter positioning)- shows the body to its best advantage
- Architecture declined in Late Classical Period
 - (Athens was beaten in Peloponnesian War)
- Temples still used Doric columns
 - Corinthian columns became more popular
- Hellenistic Period saw increasing influence of the East (Greek style blended more w/ Asia Minor)

Thank
You!
