

Elements of Art - Color

(35-37)

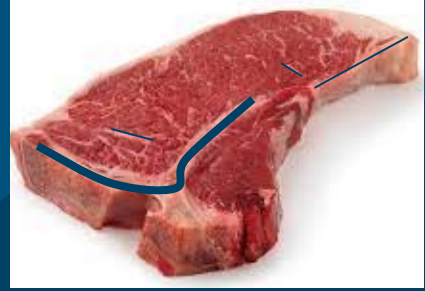

ELEMENTS OF ART

- Need to focus what sort of techniques the art piece uses
 - Line
 - Shape
 - Form
 - Space
 - Colo(u)r(can't do [:(])
 - Texture(can't do [:(])
 - Ect.
 - This vocab. is needed to understand artwork

Line

- Basicest element
- Any mark-making tool can make lines
- Path of a point moving thru space
- Have varying length, width(boldness), & direction
 - Vert. lines move up(churches)
 - Horizont. lines are peaceful
 - Diagon. lines & curves are energetic
- Lines can be dashed(- - - -)
- Can be edges/corners

Shæpe

- what defines the 2D area of an object(square is shape)
 - A drawn apple is a shape representing it
- In 2D artwork, artist may try making illusion of form thru other techniques
- if use math it is geometric(conveys order), if not, it is organic(living things are irregular shapes/forms)(conveys moving)

Form

- Related to Shape
 - what defines the 3D volume of an object(cube is form)
 - A molded apple made of clay is a form
 - Forms can also be geometric/organic

Spæce & Perspective

- Space - Area in artwork (Associated w/ organization of objects)
 - Objects occupy + space
 - Space not occupied is - space
- Perspective - fake depth in 2D art
 - Shading, highlighting borders to copy how light shining objects give depth, place objects lower/higher, overlap objects/change size & detail make them close/far
 - Aerial perspective - technique regards particles change appearance of things for afar

Thank
You!
