

Electricity is
Life - Ohm's
Law (41-43)

By: Matija Benko

Electricity is Life

- **Ampere** = Coulomb/second (electric current)
- Electricity can kill you
 - Direct lightning strike burns
 - Nearby strikes deliver their energy
 - appliances/fork in outlet
- Keep studying how various parts communicate w/ electricity (Mary Shelley wrote *Frankenstein*)
- EKG measures voltage across ur body to measure heart rate
- Defibrillators make a crazy heart normal

Ihan

k

You!
